

5-Day Expert Marksman Course

An Expert Marksman is a client with above average marksmanship and is equipped with accurate weapons and optics. This course consists of in-depth instruction on marksmanship fundamentals, known distance shooting, moving target engagement, ballistics, limited visibility engagement. Threat response, Methods of Engagement, Immediate action drills for Threat Mitigation, shooting from cover/concealment and advanced shooting positions are also covered in this comprehensive course

3 and 5 Day Aerial Platform Marksmanship Course Pricing

The 3 and 5 day Aerial Sniper Course develops advanced skills for the Designated Marksman that is already trained in basic Sharpshooter operations. This course begins with basic aircraft familiarization procedures and takes the student to a point where they are engaging targets from a moving aircraft up to 20knts. The only difference in the 5-day course is the amount of flight time given to students. The a/c used for this course are smaller more agile helicopters that are more likely used in civilian agencies around the country from Bell Jet Rangers to MD-500.
