

EDUCATIONAL INSTITUTE GRANT ASSISTANCE SERVICES

With shrinking budgets and rising costs for just about everything, Raidon Tactics Inc can assist your organization with grants from Federal, State and County funded programs. Our grant assistance personnel are almost 100% with getting the funds needed for security assistance and training. All you have to do is allow us to conduct the training and other services needed and allowed under the grant. We do all the work before and after the paperwork. We ask for no payment before approval and no payment if not approved. It is a winning combination for your organization. It only costs you time. Call our Grant Assistance Director for a list of the possible grants that you organization may qualify for.
