

EMERGENCY ACTION PLAN ASSESSMENT, DEVELOPMENT AND INTEGRATION

The Emergency Action Plan (EAP) is the one thing that everyone can turn to in the event of a threat situation. That is why it is so important that it actually works and is relevant to most situations. Developing an EAP is the one thing any organization can do to save lives and mitigate or reduce threats. Raidon Tactics Inc assesses relevant and realistic threats, develops the EAP and then integrates it with staff training, student awareness and local Law Enforcement departments. This is an ever-evolving process. Once the EAP is complete is the time to begin looking at new and emerging threats. Raidon Tactics Inc will coach and mentor your Security Force during the entire process so that once the EAP is complete, the Security Force can continue to mitigate emerging threats and situations.
