

## Five Day Gunfighter Course

This course develops the gunfighter mentality and skill set needed for integrating both primary and secondary weapons systems in preparation for the tactical urban gunfight. The student will exercise these skills in a variety of stressful shooting situations from daylight to nighttime shooting. The student will quickly gain experience, confidence and increase skill to the expert level with the handgun and carbine. He will master weapons handling skills and safety. The course ends with a comprehensive Combat Tactical Skills evaluation. This course is a shorter version of the US Army Special Forces Advanced Reconnaissance, Target Analysis and Exploitations Techniques Course (SFARTAETC) CMMS.
