

Five Day Tactical Carbine Operator Course

This course is an NRA certified course taught by Raidon Tactics Inc. This course develops a masterful understanding and proficiency with a tactical service rifle. Students will progress from basic handling and marksmanship skills to advanced shooting drills. This course will focus on techniques used in an urban environment. The student will develop skills that will increase their speed, accuracy and confidence with the carbine. The student will leave this course with a true understanding of tactical target engagement and the ability to integrate these skills into his overall warrior skill set. This course is designed after the US Army Special Forces Advanced Reconnaissance, Target Analysis, Exploitations Techniques Course (SFARTAETC) CMMS program.
