

## **SECURITY FORCE INTEGRATION TRAINING**

Once an Emergency Action Plan (EAP) is developed for your institute, an integration of your security force and the local Law enforcement is needed. Because of the disparity of training with each individual in the security force and the Local Law Enforcement depts. A common ground has to be found. Once that common ground is defined, the training needs to begin and Raidon Tactics Inc can fill the voids with our expert training. A Crisis Action Team can then handle all situations faced by the institute. This not only builds local community relationships that makes life better, it may actually save lives when a threat situation develops.
