

COUNTER-TERRORISM CLOSE QUARTERS BATTLE (CQB) COURSES

THREE-DAY AND 10-DAY INTRODUCTION TO CQB SUPPORT PERSONNEL COURSE (SFBUCC)

This course introduces the principles and fundamentals of Close Quarters Battle. It is the perfect training for support personnel that are attached to Special Forces ODA's and NSW SEAL Task Units. It begins with two-man room clearing and progresses to multi team multi-room CQB. To attend this course the student is required to attend a three-day marksmanship course first. Hallways and Stairwells are NOT covered in this course. This course is specifically geared for the support personnel of a USSOCOM unit. This course begins as a simmunitions/air-soft course and evolves to live -fire maneuver. Unit risk assessments will need to be completed before training starts and all Individual Combat Gear will be used.

FIVE-DAY INTRODUCTION TO CQB SUPPORT PERSONNEL COURSE This course is the three-day course with hallways and stairwells added. It has the same three-day marksmanship course pre-requisite.

SFAUC (COMBINATION OF ALL OF THE FOLLOWING COURSES)

FIVE DAY BASIC CQB COURSE

This course is the CQB portion of the Gunfighter Series of Course listed above. Upon completion of a Gunfighter Course the student is eligible to attend the 5-day CQB Course. This course is designed to take a team or group of individuals to a level of proficiency that prepares them for Direct Action Missions overseas. It was designed on the SFAUC curriculum, without breaching. In five days, the unit will progress to live-fire multi-team multi room CQB.

FIVE DAY AND 10 DAY ADVANCED CQB COURSE (SFAUC)

This course is for the SFODA or SEAL Troop that has already been trained in the principals and Fundamentals of CQB and just needs to keep its skills at a high level. It will begin with simmunitions or air-soft and progress quickly to live fire.. This course starts with FOUR-man room clearing and moves to multi-team multi-structure CQB depending on the unit skills and needs. Hallways and stairwells are covered but, no EXPLOSIVE breaching. Flash-bangs can be incorporated if the unit has a need. All individual KIT will be utilized and some force on force Simms training will take place.

THREE-DAY VEHICLE INTERDICTION COURSE

This course is the follow up to the five day ADVANCED COURSE. This course is designed for the unit that has a need for interdicting vehicles while moving but not killing its occupants. This course utilizes real vehicles and air-soft or simmunitions and lots of force on force training. The unit is able to design its course based on its AO. Sedans, Pick-up Trucks and Vans can be used.
